WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 9009

SESSION NUMBER: 1

DATE OF SESSION: 23 Mar 90

DATE OF REPORT: 30 Mar 90

START: 1231

END: 1344

METHODOLOGY: crv

VIEWER IDENTIFIER: 018

1. (S/STD) MISSION: Provide information on narcotics-smuggling operation.
2. (S/STD) VIEWER TASKING: Encrypted coordinates.
3. (S/STD) COMMENTS: No Physical Inclemencies.
4. (S/STD) EVALUATION: Some descriptive information is not in harmony with operational data provided. Of interest is insistence on grey and black as relevant colors for the vessel--reported as well by other viewers. The "thing" described on the receiving vessel was described in-session (but not fully described in the summary) as being "on the back," and having a portion that was "like spokes on a wheel." It had delicate interactive parts that were protected by other, more heavy-duty components, and had a portion that was very smooth and another part that was rough and hard. Descriptors may be that of a helicopter, which would agree with source 079. Confidence estimate: 45%
5. (S/STD) SEARCH EVALUATION: Transfer location from Map 1 is plausible. Confidence estimate: 60%

WORKING PAPER

Project: 9009  
Date: 900323  
Time: 1231-1344  
Viewer: 018  
Session: 01

SUMMARY OF INFORMATION:

1. (S/STD) The site consists of two structures, strongly connected in some non-physical way. (Feedback: two ships).
2. (S/STD) Describe the vessel(s): The receiving vessel is large, mainly gray, with black at the waterline and possibly along the top. The superstructure is large, yellow and black in color, and has a sharp vertical front. There is a flag on the ship, hanging off a slack rope (see Fig. 4). This flag is divided vertically. The half near the rope is white and the other half is red. The deck on the front of the vessel has objects lying on it in the pattern shown in Fig. 5.
3. (S/STD) Determine the transfer location: (Time: 1330 hrs local, 23  
(14 N/125 E)? MAR 90) There were several impressions all across the map area, but the strongest is in the islands on the north-east of the Phillippines (see map, Fig. 1).
4. (S/STD) There is a "thing" on board the receiving vessel which is large (see Fig. 2), and which has very sturdy, having been designed to have thick portions surrounding very delicate mechanisms in order to give them protection.
5. (S/STD) Determine the time of transfer of contraband: There will be an

~~SECRET~~ STIPPLED NOFORN  
SPECIAL ACCESS REQUIRED

attempt on or about 23 MAR 90, but this will be aborted. The contraband will then be transferred in the later part of 25 MAR 90. The receiving ship will then depart at night on 26 MAR 90 (see time-line, Fig. 3).
